

Quick Heal

# Quick Heal AntiVirus Pro

Smart | Secure | Sustainable

# Quick Heal's Next-Generation Cyber Security Solutions are powered by GoDeep.AI

GoDeep.AI is a cutting-edge malware-hunting technology powered by Artificial Intelligence.

Our **Deep Learning Module** learns and remembers every historical malware threat and stores the learnings in a centralized cloud. It feeds the **Artificial Intelligence algorithm** to learn and evolve in real-time, providing the engine with the capabilities of **Predictive Detection**.

This algorithm works conjointly with **Behavioral Detection technology** that monitors and tracks the activities of each program. This technology further blocks the program immediately if its behavior is found suspicious. GoDeep.AI, with its advanced technology, protects users from threats that have never occurred before **Zero Day attacks**.

# Enjoy secure **digital experience** with Quick Heal AntiVirus Pro

## Key Features

Ransomware Protection

Browsing Protection

Advanced DNAScan

## Product Highlights

### Prevent ransomware attempts

#### Ransomware Protection

- Takes a backup of your data on regular basis, so if there is any ransomware attack, you can remove ransomware and restore your data without getting affected.

### Curb the possibility of virus spread

#### USB Drive Protection

- Stops autorun malwares of the USB drive to curb spread of malware to your system.

### Surf the Internet safely

#### Browsing Protection

- Blocks suspicious and harmful websites that can download malwares and worms to your PC or steal your data.

### Browse in a safe world

#### Browser Protection

- Ensures that malwares embedded in browsers do not access folders on your computer.

### Secure email communications

#### Email Protection

- Prevents malwares coming through emails..

### Stay protected with robust scan engine

#### Virus Protection

- Blocks virus infections that try to infect computer programs to gain admin control and steal your data.

#### Malware Protection

- Detects all kinds of malware, viruses, worms, Trojans, and spyware that try to infect your PC from various sources and removes them instantly.

#### Advance DNAScan

- Keeps an eye on all the running programs on your PC to trace any suspicious behavior. DNAScan, our indigenous and proven detection mechanism, detects new and unknown malicious threats based on behavioral classification of the documents and files.
