Gold ETFs see ₹921 cr net inflows in July, up 86% from June tally

Mumbai, August 11

GOLD PRICES HAVE risen 41.6% since January amid increasing economic uncertainty due to the novel coronavirus attack and the resultant economic fallout. The sharp rise in gold prices has prompted many investors to increase allocation to the gold exchange traded funds (ETFs). In July, gold ETFs saw net inflows of ₹921.19 crore compared to ₹494.23 crore in June, registering around 86% growth.

The Association of Mutual Funds in India (AMFI) data revealed that gold ETFs had seen net inflows since April. In the first seven months of the current calendar year, gold ETFs had seen net inflows of ₹4,451.9 crore. Only in March, gold ETFs had seen net outflows of ₹194.95 crore, while all other months saw inflows, showed the Amfi data.

N S Venkatesh, chief executive at Amfi, said in uncertain times gold becomes the safe

haven and so investors are putting their money in it.

"Even the prices of gold are going up and investors think it's the right time to get it locked in safe haven that is why they have invested in gold ETFs," added Venkatesh. Gold prices have risen 37.2% between January and July.

Bloomberg data showed that on Monday gold prices closed at ₹55,331 per 10 gm. Market participants maintained that expectations of fur-

ther stimulus, an ultra-low interest rate environment and geopolitical tensions were other factors driving investors to seek some stability for their savings through the yellow metal.

Chirag Mehta, senior fund manager (Alternative Investments) at Quantum Mutual Fund, said the re-emergence and upturn in Covid-19 infections in many parts of the world could trigger re-imposition of lockdowns and containment measures. The more

delayed the complete reversal of the great lockdown, the slower the economic recovery.

"Against this background, it is hard to imagine a scenario where central banks around the world will change their accommodative stance any time soon. With all the above forces at play, gold is proving to be an attractive portfolio diversifier and an important asset in these uncertain times," added Mehta. Financial advisors are also

of the opinion that gold is an

important part of the portfolio, but several investors only invest looking at the past returns. "I fear that once the gold prices start going down, investors will pull out and end with either losses or very minimal gains. I suggest my investors to have investments of 5-10% of gold in their portfolio, irrespective of the prices. It is because gold is not directly corelated to equity and debt and it is a different asset class," said Suresh Sadagopan, founder of Ladder7 Financial

Moody's rates Vedanta arm's dollar bonds B3 with negative outlook

FE BUREAU Mumbai, August 11

MOODY'S INVESTORS SERVICE has assigned a B3 rating to the proposed dollar bonds to be issued by Vedanta Holdings Mauritius II, a wholly-owned, step-down subsidiary of Vedanta Resources (VRL). The outlook on the rating is negative, the credit rating agency stated. The firm is likely to tap the dollar bond market in the coming weeks, bankers indicated. VRL is in the process of fully privatising its key operating subsidiary, Vedanta Limited (VDL), by increasing its stake to 100% from 50.1% and delisting the company. The proposed notes will fund the transaction, Moody's said.

"The bonds will likely have a short tenor of close to three years. We may see the issue hit the market in coming weeks,"said a banker aware of the deal. FE could not independently verify the same.

Kaustubh Chaubal, vicepresident and senior credit officer at Moody's, said the bonds were rated two notches lower

Vedanta Holdings Mauritius II, a wholly-owned, step-down subsidiary of VRL, is likely to tap the dollar bond market in the coming weeks

than the company's corporate family rating (CFR), reflecting the complex group structure, with VRL having less than 100% ownership in key operating companies and bondholders' legal and structural subordination to claims at the operating company level.

"Additionally, the privatisation of VDL will not completely alleviate risk for creditors of the holding company, who remain legally and structurally subordinated to claims at the operating companies,"Chaubal added.

Moody's said it viewed the privatisation as credit positive and a major step in simplifying the complex group structure of VRL, whose less than 100% ownership in its operating subsidiaries had historically hindered its credit profile. "The privatisation will enable VRL to better access future cash surpluses, as well as cash of around \$1.7 billion held at VDL and its wholly-owned subsidiary, Cairn India Holdings," Moody's stated.

Foreign currency bond issuances out of India had slowed down after the pandemic outbreak and its related crisis since March. Indian issuers raised close to \$10 billion from the overseas bond market so far in 2020. The pace of fund raising was strong in the first three months of the year, when Indian firms raised a record \$8 billion.

Adani Ports and Special Economic Zone, REC and UPL have hit the dollar bond market after the Covid-19 crisis-led halt. Exim Bank and Adani Electricity Mumbai raised a billion dollar each earlier this year from the foreign currency bond market.

Other entities to hit the overseas bond market this year include Manappuram Finance, Shriram Transport, Future Retail, Power Finance Corporation, IRFC, etc.

Tea planters oppose change in import duty

APEX PLANTERS' BODY in So uth India on Tuesday sternly objected to any move that might tinker with the import duty structure, cautioning about its "counter-productive" impact on the tea growing sector. United Planters' Association

of Southern India (Upasi) presidentALRM Nagappan, in a press statement, said tea was an important agro-industry that employed 2.12 lakh growers and 11.65 lakh workers, of which more than 70% were wom en. Hence, it is very important for the inclusive growth model pursued by the government, he added. Nagappan said the Indian tea production till June was lower mainly due to the initial lockdown measures, introduced to control the spread of Covid-19. This has led to some increase in the prices since mid-June, which was very much needed for the sustenance of this agro-industry. The drop in the production till June was just 8.9% of the total teaproduction in the country — needless to mention that this could be easily recouped in the second half of the calendar year. Notes to financial results:

- 1 The above financial results for the quarter ended June 30, 2020 have been subjected to limited review by the statutory auditors of the Group and reviewed by the Audit Committee and approved by the Board of Directors of the Parent Company at the meetings held on August 10, 2020 respectively.
- During the year ended March 31, 2019, Parent Company had received notice of demand dated March 13, 2019, in relation to service tax under the provisions of Finance Act, 1994 for ₹ 387.43 million (excluding interest and penalties) covering the period from April 1, 2016 to June 30, 2017 on supply of anti-virus software in Compact Disk. The Parent Company replied to the notice of demand to Commissioner of Goods and Service Tax, Pune. During the earlier years, Parent Company received similar notice of demands in relation to service tax under the provisions of Finance Act, 1994 for ₹1,223.07 million (excluding penalty of ₹626.97 million and predeposit, if any) covering the period from March 1, 2011 to March 31, 2016 on supply of anti-virus software in Compact Disk. Company had filed an appeal with Customs, Excise and Service Tax Appellate Tribunal, New Delhi for the period March 1, 2011 to March 31, 2014 and with the Customs, Excise and Service Tax Appellate Tribunal, Mumbai for the period April 1, 2014 to March 31, 2016. The Hon'ble Customs, Excise & Service Tax Appellate Tribunal (CESTAT), Principal Bench, New Delhi, vide its judgment (Order No. 50022/2020) dated January 09, 2020 (Service Tax Appeal No. 51175 of 2016), has set aside the Service Tax demand for ₹560.71 million along with interest and penalty which was earlier confirmed by Directorate General of Central Excise Intelligence (DGCEI), New Delhi vide its Order of 2016 covering period from 2011 to 2014. Based on this judgement of CESTAT, New Delhi, technical circular issued by government authorities and an independent legal opinion obtained by the Parent Company in earlier years, the Parent Company is confident of also getting the claims set aside for balance period from April 01, 2014 to June 30, 2017. Accordingly no provision/contingent liability has been recognized/disclosed in the financial statements.
- 3 The Group is engaged in providing security software solutions. The Chief Operating Decision Maker (CODM) reviews the information pertaining to revenue of each of the target customer group (segments) viz. retail, enterprise & government and mobile. However, based on similarity of activities/products, risk and reward structure, organisation structure and internal reporting systems, the Group has structured its operations into one operating segment viz. anti-virus and as such there is no separate reportable operating segment as defined by Ind AS 108 "Operating segments".
- Figures for the quarter ended March 31, 2020 is the balancing figures between the audited figures in respect of the full years and published year to date figures of nine month ended December 31, 2019
- 5 Estimated uncertainty relating to COVID-I9 outbreak: The World Health Organization announced a global health emergency because of a new strain of coronavirus ("COVID-19") and classified its outbreak as a pandemic on March 11, 2020. In response, the Indian Government have taken various actions and announced phased lockdown across the country from March 24, 2020 to contain the spread of the virus, which is being extended from time to time till August 31, 2020. This pandemic and Government response resulted in significant disruption in global supply chain and business operations and adversely impacting most of the industries which has resulted in global slowdown. The Management has made an assessment of the impact of COVID-19 on the Company's operations, financial performance and position as at and for the quarter ended June 30, 2020 and has concluded that the impact is primarily on the operational aspects of the business. In assessing the recoverability of receivables including receivables, investments, and other assets, the Company has considered internal and external information up to the date of approval of these financial results including status of existing and future customer orders, cash flow forecasts, commitments with suppliers, etc. The Company has performed sensitivity analysis on the assumptions used and based on current indicators of future economic conditions, the Company expects to gradually recover the carrying amount of these assets, the Company has also considered the impact of subsequent events in its assessment and concluded that there is no significant impact which is required to be recognised in the financial results. Accordingly, no further adjustments have been made to the financial results. Considering the dynamic nature of the issue, the impact of the global health pandemic may be different from that estimated as at the date of approval of these financial results and the Company will continue to closely
- monitor any material changes to future economic conditions. 6 Ms. Priti Rao has resigned as Independent Director w.e.f June 01, 2020.
- 7 Mr. Bhushan Gokhale (DIN 01493276) is appointed as an Additional Director in the Independent category w.e.f. August 12, 2020.
- 8 Previous year's figures have been regrouped / reclassified wherever necessary to make them comparable with the current year's classification / disclosure.
