Episode 7: Cybersecurity | Senior Assistant Editor Hamsini Karthik speaks to Sanjay Katkar, Joint Managing Director & Chief Technology Officer at Quick Heal Technologies on data and privacy in the financial space, the darknet, and more.

We fill out a lot of forms, there are so many KYC procedures we go through, we share our phone numbers today, pretty much with everybody, whether it's to buy a toy at the toy store, opening a bank account, to a diagnostic center for a blood test. Our ID's are also sort of sought out from hotel booking to anything related to GST, bank statements, and so on. Where does one draw the line with respect to what data we can share?

In this podcast, Senior Assistant Editor Hamsini Karthik speaks to Sanjay Katkar, Joint Managing Director & Chief Technology Officer at Quick Heal Technologies on data and privacy in the financial space, the darknet, and common tips that consumers can follow while accessing financial services online and more.
